

TUTORIAL

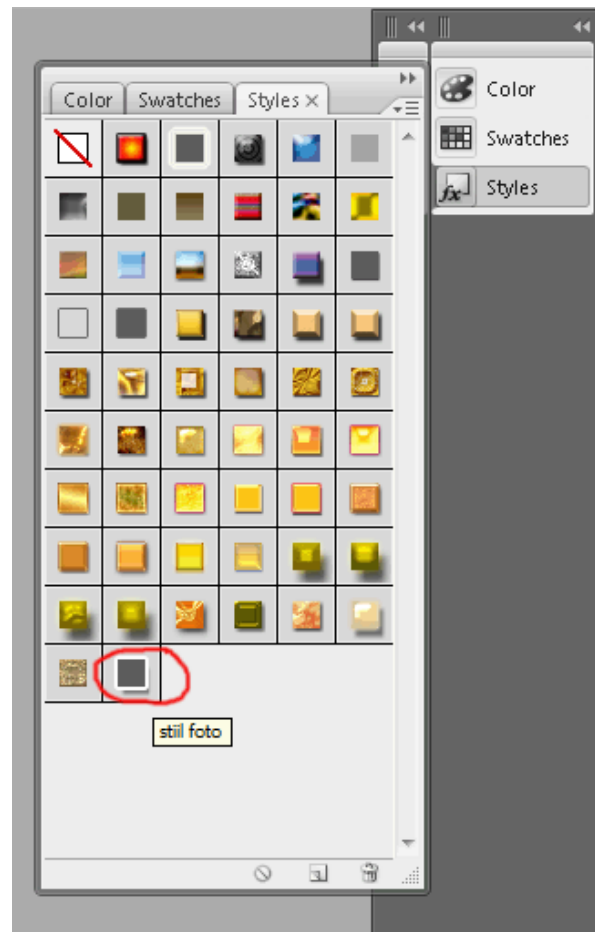

HOW TO USE PHOTOSHOP ACTIONS

ArtcoDesign.com has created a special Photoshop action in order to make it easier for customers to use our templates.

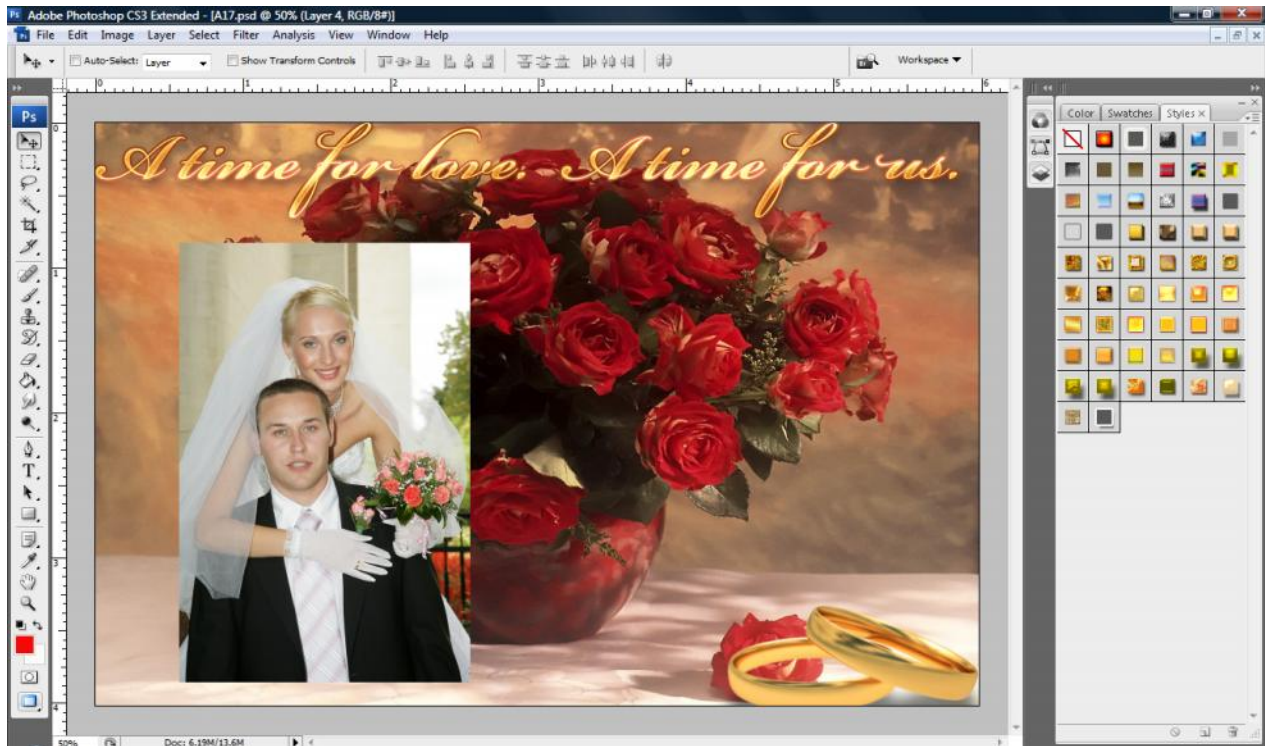

1. Double click on the Action file  **StyleFoto.asl** to load it in Adobe Photoshop
You can download this Action Style here: www.artcodesign.com/tutorials/StyleFoto.asl
2. Open the Styles palette in Photoshop:

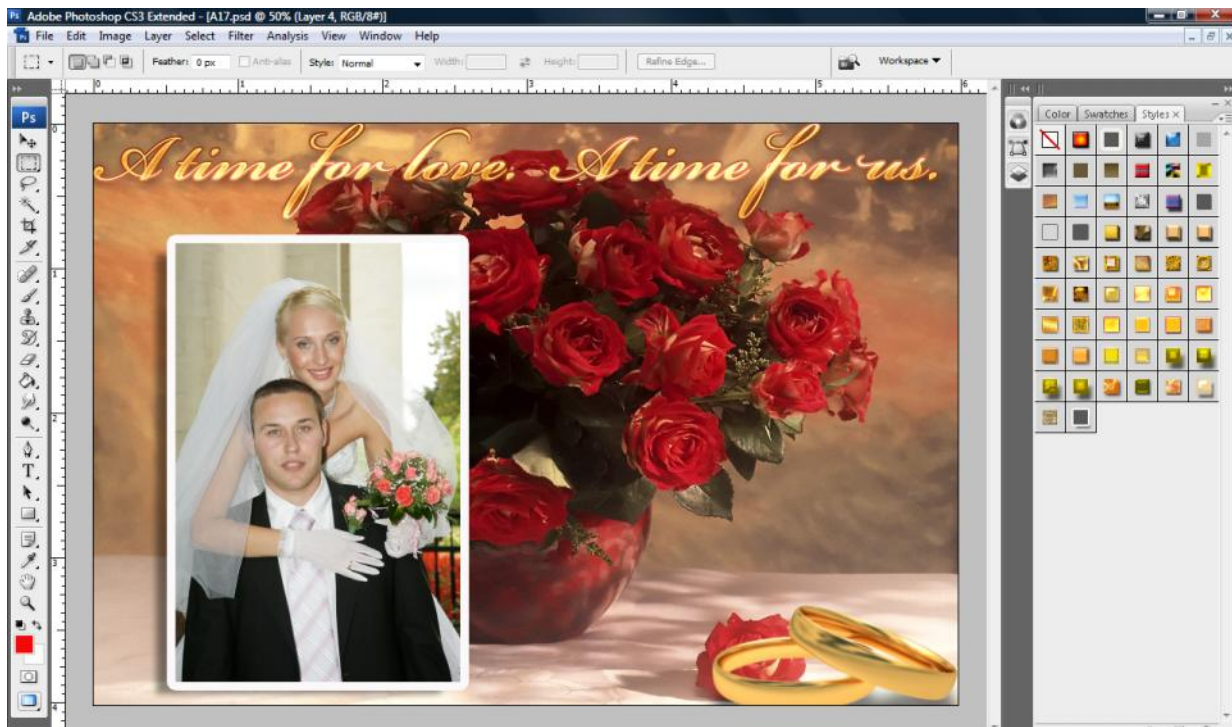

Our Style will appear the last one at the bottom:

3. Load the PSD Template and replace the samples with your own photo. Make sure your photo layer is selected.

4. Click on the style to instantly give your photo a special effect (a white frame with shadow light).

Use this action for any of your photos. Always make sure your photo layer is selected
